Out here, where we have no manufacturers and no stock gambling, the recent decisions in the oil and tobacco cases have created no flurry whatever. As to the consumers, the midnight oil is burned as afootime; the smokers have never missed a puff, and the squirt of the chewer has lost none of its erst while keenness.

For some unknown reason, the U. S. Court at Harrisonburg, made a heavy draft on Highland this spring in the formation of juries. The following gentlemen are now in attendance: Messrs. E. A. Wade, C. T. Bird, Geo. E. Dudley, J. S. and Willis Gibson, H. H. Seybert, J. M. Jones. Latest Loss Estimates.

Staunton, Va., June 5.—The damage caused by Sunday's storm is far worse than at first reported. Insurance men here say that the losses will exceed those from the recent fire, which footed up \$125,000. Untold havoc was wrought in the county, where the hail ruined acres of crops. Tonight an estimate places the crop loss at a million dollars.

The Putnam Organ Factory sustained a loss of \$10,000. Damage to the amount of \$1,000 was done at the Deaf, Dumb and Blind Institute. Hardly a house in the city escaped some damage.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlin's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by Dr. K. H. Trimble.

Stephenson, of Monterey, Va., who for more than forty years was an active member of the Bar of said county.

JACK JOHNSON TO FIGHT.

Baltimore, Md., June 2.—"Jack" Johnson, the negro champion of champions in the prize fighting game, and Sam Langford, the Boston "Tar Baby", who aspires to "Jack's" title and consequent emoluments, will settle their differences on Maryland soil if plans which have been quietly worked out for several weeks are carried through without the interference of the state authorities.

Bladensburg, which is just outside of Washington, and where many years ago the nation's most famous men journeyed to settle their differences with pistols, will be the scene of the contest between the negro heavyweights, and the plans for the contest, it is stated today, have gone so far already that contracts for the erection of the arena have already been let.

Careless Shipment Prevents Examination, say Health Officers.

Richmond, Va., June 6, 1911—Physicians and private individuals sending the heads of animals suspected of rabies for examination should be careful to pack them in ice and to send them direct to Washington, if they wish satisfactory examinations made. The State Health Department does not make the examination for rabies and, during recent weeks, has received a number of specimens in such condition that they had to be destroyed. Under arrangements with the Federal Government, specimens from Virginia can be sent to the United States Hygienic Laboratory at Washington, provided they are sent direct by express, prepaid and carefully packed in ice.
